

**WORLD AIDS DAY**, designated on 1 December every year since 1988, is an international event, a day dedicated to raising awareness of the AIDS pandemic caused by the spread of HIV infection and mourning those who have died of the disease.

United Methodists have been in ministry since the beginning of the HIV/AIDS pandemic. They have followed the way of healing, ministry, hospitality, and service shown by Jesus Christ. God's Word calls us to a ministry of healing, a ministry that understands healing not only in physiological terms but also as wholeness of spiritual, mental, physical, and social being.

**December 1, 2018** | *Stonybrook UMC*

485 Cherry Bottom Road, Gahanna, Ohio 43230
